ASE Supply Thermo by Products

Revolutionizing Time Tracking
with TimeCom® for BambooHR®

The challenge

Company Overview

ASE Supply Thermo by Products, an Oregon-based distributor of automotive, truck, and trailer parts, has been a cornerstone in the industry since 1964. As an employee-owned company, ASE Supply prides itself on delivering enthusiastic and dedicated customer service. Their 25,000-sq/ft warehouse in Portland, Oregon, houses a specialized service department for alternators, starters, inverters, and power generation solutions, serving diverse markets and customers.

Challenge

Despite their commitment to quality service, ASE Supply Thermo by Products faced significant challenges with their time tracking system:

- Inaccurate timekeeping with existing mobile app solution
- Unauthorized clock-ins and outs by some employees using mobile application
- Excessive overtime claims

The Solution

The Solution

ASE Supply Thermo by Products implemented the cloud-based TimeCom for BambooHR solution from Accu-Time Systems (ATS), which included:

- One stride@80 time clock with a fingerprint biometric reader
- Seamless integration with BambooHR conducted by ATS
- Simple clock configuration to meet payroll needs. Clock in / out, Meal in / out
- Training videos on how-to use and enroll employees

Implementation Process

The implementation of TimeCom for BambooHR was fast, smooth and efficient:

- Easy installation process, supported by ATS through video call
- Quick employee adoption and straightforward enrollment

ASE Supply Thermo by Products Customer Quote

“If you are a business with hourly employees – this is a perfect solution. It keeps your employees more honest, and you don’t have to move data manually from the clock to BambooHR.”

Valorie Walton

HR Manager ASE Supply Thermo by Products.

TimeCom: key Benefits

Key Benefits

Improved Accuracy: Significant reduction in overtime claims

- **Real-time Data Transfer:** Clock-in data delivered to BambooHR system in real-time.
- **Enhanced Security:** Biometric authentication prevents unauthorized clock-ins
- **Streamlined Processes:** Elimination of unauthorized clock-ins
- **Customization:** Streamlined clock configurations to meet specific needs

Results and Impact

The implementation of TimeCom for BambooHR has revolutionized ASE Supply Thermo's time tracking process:

- Overtime has decreased substantially, with some employees' claims reducing from 4-5 hours per week to just 2 hours
- Improved accountability and honesty among employees
- Improved accuracy in data collection
- Streamlined payroll processing with automated data transfer
- Enhanced overall operational efficiency
- ASE Supply Thermo by Product's success story with TimeCom for BambooHR demonstrates the power of innovative time tracking solutions in driving efficiency and accuracy for small to medium-sized businesses.
