

timecom®
an ATS time collection solution

Timecom® for Workday

TimeCom® is a powerful cloud-based time and attendance tracking solution that integrates seamlessly with Workday Time Tracking.

More than simply a time and attendance terminal, TimeCom is a complete solution that enables highly accurate data collection for Workday Time Tracking. ATS' proven time and attendance terminals communicate with Workday Time Tracking via cloud-based software designed specifically to integrate with the Workday application. The modern user interface on the terminal is familiar and easy to use for employees.

TimeCom® for Workday® is a best-in-class system for automating and validating the efficient collection of employee time & attendance data. The seamlessly integrated solution helps you optimize your investment in Workday and the Time Tracking module.

How It Works

Your Workday® Time Tracking Solution is managed and hosted in the Cloud so your internal resources are free to focus on other projects. The ATS team ties the whole system together with its communications software that allows your time and attendance terminals to communicate seamlessly with your Workday application, resulting in an efficient and very powerful solution..
