# TimeCom for Workday

More than just traditional time clocks, Accu-Time Systems' TimeCom® is a cutting-edge, enterprise-grade timekeeping solution designed to seamlessly integrate with **Workday's Time Tracking**

By combining advanced hardware, sophisticated software, and cloud technology, TimeCom delivers precise, efficient employee time management that streamlines workforce data collection and processing. Typically implemented within six weeks, it rapidly boosts operational efficiency and drives measurable business value.

# Why Businesses
# Choose TimeCom

**timecom®**
a time collection solution

# Proven Success!

- **Proven Success Across 300+ TimeCom for Workday Deployments:** Trusted by a broad range of industries nationwide and globally, demonstrating exceptional reliability and adaptability.

- **Certified Integration** with Workday ensures seamless, near real-time synchronization of time and attendance data.

- **Rapid Implementation, Minimal Disruption:** Typical 6-8 weeks rollout accelerates your ability to optimize labor management and reduce administrative overhead.

- **Rich self-service at the clock:** Employees can view hours, recent punches, schedules, accrual balances, and request time off directly on the clock, improving engagement and reducing HR/admin inquiries.

- **Better compliance and controls:** Enforcing breaks, schedules, biometrics, and data encryption helps organizations stay compliant, prevent time theft, and secure workforce data.

- **Omni-Channel Clocking:** Flexible options support mobile web apps, kiosks, telephone IVR, and browser-based punches for remote and hybrid workforce models.

- **Stringent Security and Compliance:** Fully compliant with SOC 1 & 2 Type 2, GDPR, BIPA, and CCPA standards safeguarding your sensitive workforce data.

- **Dedicated US/UK-Based Support:** Expert, in-house customer service ensures smooth deployment and ongoing operational success.

# Powerful Features of TimeCom

- **Seamless Workday Time Tracking Integration:** Near real-time data exchange eliminates manual processes and ensures up-to-date labor data.

- **Advanced Time Capture:** High-precision biometric recognition, RFID proximity badges, magnetic stripe cards, bar codes, and PIN entry options.

- **Remote Workforce Ready:** Employees can punch in/out anytime, anywhere via smartphones, tablets, desktops, kiosks, or telephone IVR.

- **Cloud Middleware Platform:** Secure, scalable, and accessible cloud-based management system with data redundancy for reliability.

# Key Benefits for Your Organization

- **Streamlined Workday Integration:** Automate time data flow and eliminate manual entry errors, simplifying payroll and HR.

- **Rapid Deployment:** Six to eight weeks to full implementation means quicker business impact and benefit realization.

- **Accurate Time Tracking:** Advanced biometric and multi-factor clocking reduce buddy-punching and time theft.

- **Cost Efficiency:** Low total cost of ownership with fast ROI due to efficient setup and operation.

- **Flexible Labor Cost Tracking:** Customize tracking across departments, projects, or business units for precise cost control.

- **Compliance & Security:** Certified compliance ensures your time and attendance system meets the most rigorous privacy and security standards.

- **Performance Durability:** Purpose-built hardware stands up to demanding environments for long-term reliability.

- **Ongoing Support:** US-based team available throughout deployment and operations ensures continuous success.

- **Compliance assurance through employee attestations:** Allows employees to confirm adherence to work requirements, supporting regulatory compliance.

- **SOC 1 & 2 Type 2 certifications** demonstrate our commitment to provide secure, reliable, and compliant time and attendance management solutions for our customers.

# Tailored Solutions for Every Industry

From manufacturing, retail, health & fitness, hospitality, healthcare and education, TimeCom® adapts to the intricacies of your industry's workforce management challenges. Whether managing shift workers, remote employees, or complex labor rules, TimeCom® provides the precision and compliance you need.
